Fast Facts

GM VEHICLE INFORMATION

PRODUCT OVERVIEW

Key Vehicle Points/Accolades

Cadillac's luxury/performance sedan receives new look and new technology for 2008.

The 2008 STS includes the first application of the new Direct Injection 3.6-liter V-6 engine. Direct Injection increases the standard engine power from 255 to 298, with a 25% reduction in emissions.

STS features refreshed styling, with a bolder exterior and more luxurious interior. New technologies include lane departure warning, side blind zone alert and active steering.

Location of Final Assembly

The Cadillac-exclusive Lansing Grand River Assembly Plant, Lansing, MI

Key Competitors

BMW 5-Series, Mercedes E-Class, Lexus GS/LS sedans, Infiniti M sedans
